

# PolyCarbon

## Product Advantages

Single handle on long or short axis to help carry and position the image receptor

Virtually indestructible, shock absorbent, glass-filled polypropylene frame

Curved corners and radiused edges don't catch on bed sheets or clothes for easy placement

Smooth, non-porous surfaces for effective cleaning and superior infection control

Simple Twin-Lock™ dual locking design for easy panel application and removal

Ergonomic handle to reduce fatigue and provide a sure grip

Shock absorbent corner bumpers and inserts for additional drop protection and perfect fit

Fits most ANSI sized wireless DR panels and most tethered DR panels

The **PolyCarbon™** provides a rugged, extremely durable polycarbonate top plate while offering the most affordable price in the market. Like all Reina Imaging detector holders, the **PolyCarbon** product line provides superior protection for both your DR panel and the grid resulting in the **lowest lifetime cost of ownership available today.**
